DANI DECLARES

7-Day Home Reset Kit

A reset you can finish, even when time and energy are limited

Fillable on screen. Print-ready. Seven days, deep zones and a sorting page.

Edition 3 | We handle the execution.

Start here: a reset you can finish

A workable household reset, even when time and energy are limited

Your 7-day plan

1. Day 1: See the whole picture and pick one safe, high-impact win
2. Day 2: Kitchen and groceries
3. Day 3: Laundry and linens
4. Day 4: Bathrooms and supplies
5. Day 5: Bedrooms and shared spaces
6. Day 6: Paperwork and household maintenance
7. Day 7: Review the progress, not perfection

How to work the plan

- [ ] Choose a 15-, 30- or 60-minute window before starting
- [ ] Name ONE zone; keep a basket for objects that belong elsewhere
- [ ] Stop when the timer ends, or sooner if rest, children or safety require it
- [ ] Never mix chemicals; follow product-label and material instructions

Safety first

Handle spills, sharp objects, unsafe paths and anything a child can reach before anything else.
Seek qualified help for mold, pests, electrical hazards or unknown substances.

My start date

My usual window (15 / 30 / 60 min)

Day 1: See the whole picture

Choose one visible win

Pick ONE outcome. You are not committing to cleaning the entire house today.

Zone	What is in the way?	15-minute win
Kitchen	Dishes / counters	Clear sink and wipe prep space
Laundry	No clean clothes ready	Start one essential load
Bathroom	Sink / supplies	Clear and wipe sink
Entry	Shoes / bags	Clear safe walking path

My focus zone and timer length

What will be enough for today?

Hazards first

Address spills, sharp objects, unsafe paths and anything a child can reach.
Seek qualified help for mold, pests, electrical hazards or unknown substances.

Day 2: Kitchen and groceries

Choose the shortest safe path to food prep and a usable sink

Kitchen reset order

- [ ] Remove food scraps and trash; manage perishable foods safely
- [ ] Clear and clean the sink; load or wash the essentials
- [ ] Wipe food-prep counters with an appropriate product and label directions
- [ ] Put away groceries and identify items to use soon
- [ ] Sweep a safe walking path; deep-clean only when time permits

Time	Stopping point
15 min	Clear sink and one counter
30 min	Above + dishes + trash
60 min	Above + floors + one food-storage shelf

Grocery / meal / supply notes

Reminder

Avoid mixing cleaning solutions. Use manufacturer-recommended products on stone, appliances and treated surfaces.

Day 3: Laundry and linens

Start a load you can finish; a mountain of started work is not the goal

Laundry that leads to usable clothes

- [ ] Pick urgent items first: work uniforms, school clothes, towels or bedding
- [ ] Gather and sort using garment-care labels; check pockets
- [ ] Start ONE load that you can realistically finish
- [ ] Set an alarm to move it along, then fold or stage it in one zone
- [ ] Refresh linens only as time and energy allow

Load	Washed	Dried	Put away
Essentials			
Towels / linens			
Optional			

Laundry bottleneck + one fix

Reminder

Do not leave wet laundry forgotten in appliances; follow fabric and dryer safety labels.

Day 4: Bathrooms and supplies

Target touch points before cosmetic details. Work safely, then stop

Bathroom order of operations

- [ ] Ventilate appropriately and keep supplies away from children and pets
- [ ] Remove clutter, used towels and trash
- [ ] Clean sink, taps and high-touch surfaces using material-safe products
- [ ] Clean toilet using separate cloths or tools; follow disinfectant contact time
- [ ] Finish with mirror and visible floor path, if time remains

Time	Goal
15 min	Sink and toilet touch points
30 min	Above + mirror + trash
60 min	Above + tub/shower + floor if safe

Missing supplies / next purchase

Never mix

Never mix bleach with acids, ammonia, vinegar or other cleaners. Use label instructions for every product.

Day 5: Bedrooms and routines

Make the most important space usable, then pause

A calm sleeping zone

- [ ] Make one bed or clear a safe sleeping surface
- [ ] Put clothes into laundry / keep / elsewhere baskets
- [ ] Clear floor access, exits and tripping hazards
- [ ] Remove dishes or trash; use a carry basket rather than leaving your zone
- [ ] Dust and vacuum only if time allows, following surface-care instructions

Zone	Small finish line
Main bedroom	Bed usable + walking path
Child / guest room	Sleeping surface + safe floor
Living area	Seating available + trash removed

Who can help, and what can wait?

Reminder

Keep emergency exits clear. Do not handle needles, chemical spills or heavy furniture without proper help.

Day 6: Paperwork and maintenance

Contain the paper pile without turning it into a full filing-system project

Handle now	File securely	Shred / recycle
Time-sensitive forms	Receipts / records	Unneeded duplicates
Urgent reminders	Maintenance documents	Non-sensitive waste

Maintenance scan

- [ ] Check for obvious leaks, loose obstacles, broken lights or safety concerns
- [ ] Log issues and contact an appropriate qualified provider if needed
- [ ] Record due dates; do not improvise electrical, plumbing or structural repairs

Important date / contact / next action

Privacy

Store personal records securely. This planner is not a safe place for passwords, access codes or financial account numbers.

Day 7: Review and repeat

Mark what became easier and design a repeatable routine

Day	Visible win	Time spent	Next step
1			
2			
3			
4			
5			
6			
7			

What worked well?

One routine worth repeating next week

Reminder

A realistic success is a safer, more usable home, not a picture-perfect room. Repeat difficult zones later.

Deep zones and priorities

Two tools that slot into your seven-day reset

How to use them

1. Short on time? Start with the priority grid (next page)
2. Give each day one deep zone, and stay inside its borders until it is done
3. Write the zone on your reset day using the map below

Reset day	Deep zone	Who	Done
Day 1			
Day 2			
Day 3			
Day 4			
Day 5			
Day 6			
Day 7			

Remember

- [ ] One zone per day, no border crossing
- [ ] Skip any task outside your home's needs

Priority grid

Sort tasks by how much they change the room and how much anyone will notice

Do first

High impact, easy to see: dishes, counters, floors in main rooms, trash.

Do next

High impact, out of sight: fridge clean-out, bathroom scrub, laundry backlog.

Quick wins

Low effort, easy to see: pillows, drop zone, one surface cleared.

Can wait

Low impact, out of sight: closets, drawers, garage shelves.

Time I have today

My top three from "Do first"

Reminder

Stop when the time is up. Move "Can wait" items to next week, guilt-free.

Deep zone A: Kitchen deep clean

Work top to bottom, left to right, so crumbs only fall on surfaces you haven't cleaned yet

Reset day

Time set aside

Who

Kitchen checklist

- [ ] Empty the fridge one shelf at a time and toss expired food
- [ ] Wipe fridge shelves and drawers
- [ ] Wipe inside the microwave
- [ ] Clean the oven door glass and seal area (per manufacturer)
- [ ] Run a dishwasher cleaning cycle (per manufacturer)
- [ ] Wipe cabinet fronts and handles
- [ ] Dust the top of the fridge and upper cabinets
- [ ] Degrease the backsplash and stovetop
- [ ] Scrub the sink and faucet
- [ ] Wipe baseboards
- [ ] Sweep and mop, including under the edges of appliances

Remember

- [ ] Follow product labels and appliance instructions
- [ ] Done is done, even if it isn't perfect

Notes

Deep zone B: Bathroom deep clean

Ventilate the room and never mix cleaning products

Reset day

Time set aside

Who

Bathroom checklist

- [ ] Clear every surface first
- [ ] Scrub shower and tub walls and fixtures
- [ ] Squeegee or dry glass doors
- [ ] Clean the sink basin, faucet and handles
- [ ] Clean the toilet bowl, seat, outside and base
- [ ] Polish the mirror
- [ ] Wipe light switches, door handles and towel bars
- [ ] Wash bath mats, shower curtain or liner and hand towels
- [ ] Empty and wipe the trash can
- [ ] Clean the floor, edges and behind the door

Remember

- [ ] Follow product labels and appliance instructions
- [ ] Done is done, even if it isn't perfect

Notes

Deep zone C: Living and sleeping spaces deep clean

Clear first, dust second, floors last

Reset day

Time set aside

Who

Living and sleeping spaces checklist

- [ ] Clear nightstands and coffee tables of papers and clutter
- [ ] Strip, wash and remake the bed
- [ ] Rotate or flip the mattress if the maker allows
- [ ] Dust ceiling fan blades and light fixtures
- [ ] Dust blinds and window sills
- [ ] Wipe screens with a dry microfiber cloth
- [ ] Wipe switches, remotes and door handles
- [ ] Vacuum under the bed and couch and behind light furniture
- [ ] Vacuum or mop all floors
- [ ] Return out-of-place items to their rooms

Remember

- [ ] Follow product labels and appliance instructions
- [ ] Done is done, even if it isn't perfect

Notes

Keep / donate / toss

A short sorting worksheet to use with the seven-day zone plan

Item / space	Keep	Donate	Toss	Next action

Safety

Handle medicines, chemicals, batteries and electronics under local disposal guidance. Do not donate unsafe items.

Usage and safety

Please read before you use the kit

Practical tools, not guaranteed outcomes. Original planning templates. Not safety, health or professional advice.

Follow product labels and safety data sheets. Never mix cleaning chemicals. Ventilate while you clean.
Keep cleaners away from children and pets. Ask a professional about mold, pests, electrical or structural problems.
Do not write passwords, access codes or financial account numbers in this kit.

License: one purchasing household may print and adapt for its own use.
Redistribution or resale of template files is not permitted.
