DANI DECLARES

Client Intake & Scope Change Kit

Agree the scope. Approve every change in writing

Fillable on screen. Print-ready. Works with the pocket app.

Edition 2 draft | We handle the execution.

First contact

Ask what outcome the client needs

1. First contact

Ask what outcome the client needs, where, when, what has been tried and who can authorize the work. Do not collect sensitive data you do not need.

Client reference

Date of first contact

Outcome the client needs

Where (area or site type)

When (date and time window)

What has been tried

Who can authorize the work

Best way to reach them

Notes

Qualification

Is this a fit? Decline politely when it is not

2. Qualification

Confirm the job is in your service area and among the services you offer, then check site access, hazards, budget fit and timeline.

Qualification checklist

- [ ] In my service area
- [ ] A service I offer and am qualified to perform
- [ ] Site access is clear and authorized
- [ ] Hazards identified or ruled out
- [ ] Budget fits the likely scope
- [ ] Timeline is realistic
- [ ] The person asking can authorize the work

Decision (accept, quote, refer or decline)

Reason, in neutral words

Baseline scope

Write down exactly what is and is not included

3. Baseline scope

Write the included tasks, excluded tasks, condition assumptions, what the client must prepare, estimated duration and what proof of completion you will provide.

Included tasks

Excluded tasks

Condition assumptions

What the client must prepare

Estimated duration

Proof of completion I will provide

Client acknowledged scope (name, date)

Change request log

Record before you act. Written acceptance before proceeding

4. Change request

Record a change ID, the reason, added or removed work, price impact, schedule impact and who decided. Stop work on the new request, assess it safely, quote it separately and wait for written approval.

Change ID	Change detail	Price delta	Schedule impact	Approved by / how / when

Client communications

Send the right message at the right stage

5. Client communications

Send the scope summary, arrival window, access instructions, change approvals, completion confirmation and a feedback request at the right stages.

Stage	What I send	Sent (date)	Client reply
Scope summary			
Arrival window			
Access instructions (secure channel)			
Change approval			
Completion confirmation			
Feedback request			

Closeout

Match the finished work to the approved scope

6. Closeout

Match the finished work to the approved scope, photos or other evidence, your quality check, the invoice and the client's acknowledgment. Respect opt-outs and your retention policy.

Closeout checklist

- [ ] Finished work matches approved scope and every approved change
- [ ] Evidence saved (photos or other proof)
- [ ] Quality check complete
- [ ] Invoice matches scope plus approved changes
- [ ] Client acknowledged completion
- [ ] Opt-outs and retention policy respected

Client acknowledgment (name, date)

Follow-up date

Worked example

How a change request is handled

7. Worked example

Original job: a standard two-bedroom turnover. On arrival the client asks for extensive debris removal. Stop, assess safely, quote the change separately and wait for written approval.

Field	Example entry
Client reference and date	C-2041, 2026-10-08
Service and site type	Turnover clean, two-bedroom apartment
Requested outcome	Move-in ready by Friday 5 pm
Baseline scope	All rooms, inside kitchen appliances; excludes carpet shampoo and debris haul-off
Change ID and detail	CH-1, remove 6 bags of tenant debris
Price delta and approval	+$85.00; client approved by text at 10:42 am
Status	Approved, in progress

Example data

The entries above are an illustration. Replace them with your own and use your own prices.

Using the tracker and pocket app

Keep the record consistent across devices

Implementation checklist

- [ ] Duplicate the editable tracker and keep an untouched master copy
- [ ] Replace the example row with your own information
- [ ] Get the approvals your clients and jurisdiction require
- [ ] Review the tracker weekly; archive old versions per your policy
- [ ] The pocket app saves in this browser only: export CSV regularly

Limits

Educational template for independent service operators and households. Adapt it to your own prices, policies, local rules and client requirements. Not legal, tax or financial advice.

Customization

DANI DECLARES LLC offers separately scoped business-setup help. This purchase does not include it.
